Greetings!

The Medford Office of Planning, Development, and Sustainability would like to invite your organization to participate in the annual Harvest Your Energy Festival. This event is a wonderful opportunity for businesses, residents, and organizations to come together and learn about energy savings, environmentally friendly practices, and the climate crisis. We think your organization might be a great fit!

At the festival, visitors will be able to learn about the energy and cost saving programs the City of Medford has to offer, as well as local organizations' and businesses' green practices and services while enjoying presentations, events, and live entertainment. Some tables are educational, some have activities for children and adults, others sell products and services. We encourage interactive and educational exhibits to entertain as well as inform the attendees.

In past years, we have had very successful free raffles. We welcome donations to our selection of prizes. Opportunities to win large items for free are a huge draw to our festival and are a wonderful way to promote your business.

The Harvest Your Energy Festival will be held on October 16th from 12 P.M. to 3 P.M. at the base of the Medford Wind Turbine in Riverbend Park, Medford, MA. Rain location is inside the McGlynn Middle School. Updated information can be found on our website: <https://medfordenergy.org/gogreen/harvest-your-energy-festival/>

Please save the date! At this time we are accepting applications for businesses and organizations to have tables and/or sponsor the festival. The exhibitor application with information about the cost per table can be found attached to this email. The deadline for reserving a table is October 1st and the deadline for a sponsor to be listed in the program and on flyers is September 16th.

Feel free to contact Leah Burkhardt at enviro@medford-ma.gov or in room 308 of Medford City Hall with any questions.

We hope to see you there!

Thank you,
Leah Burkhardt
