AGENDA

| Time | Details |
|--------------------------------|---|
| 6:30-7:00 | Administration. <ol style="list-style-type: none"> 1. Greetings, roll call, and introductions of guests. 2. Review of minutes from January 6, 2023. 3. Administrative updates from Alicia Hunt. 4. Review of committee meeting dates for 2023. |
| 7:00-7:30 Discussion All | Suggested priorities for MEEC in 2023 I wanted to ask everyone to provide some input into our priorities for 2023. The following list contains many of the previous priorities that the committee has advocated and focused on: <ol style="list-style-type: none"> 1. Annual organization of the Harvest Your Energy Festival at the McGlynn Middle School. 2. Support and promote electrification of public transport 3. Support and promote tree equity across Medford and in particular in areas where there is a paucity of canopy (through our continuing cooperation with Trees Medford) 4. Presentation of the Green Awards to Medford residents and businesses that have made substantial contributions to our local environment. 5. Engagement of High School students in support of various environmental issues. |

For accommodations, please call in advance: 781-393-2137 or TTY: 781-393-2516

Medford Energy and Environment Committee Mission: To promote policies and actions that make Medford more sustainable by encouraging resource conservation, improving climate resiliency, and increasing the use of renewables to meet present and future needs of the Medford community.

- a) How can we help increase engagement?
 - b) Solid waste initiative at the High School?

Medford Energy and Environment Committee Mission: To promote policies and actions that make Medford more sustainable by encouraging resource conservation, improving climate resiliency, and increasing the use of renewables to meet present and future needs of the Medford community.

The meeting recording will be available on the committee website within a few days:

<https://medfordenergy.org/gogreen/medford-energy-committee/>

On July 16, 2022, Governor Baker signed into law An Act Relative to Extending Certain State of Emergency Accommodations. This Act allows public bodies to continue holding meetings remotely through March 31, 2023 without a quorum of the public body physically present at a meeting location, and to provide "adequate, alternative" access to remote meetings.

In accordance with this Act, this meeting of the City of Medford Energy & Environment Committee is being conducted totally via remote participation using Zoom, including committee members and the public. The use of Zoom complies with the law's requirement to provide live "adequate, alternative means" of public access to the deliberations of the public body, instead of holding meetings in a public place. Persons who would like to listen to or view this meeting while in progress may do so by using the link that was included on the meeting agenda posted on the City of Medford website. We will also post a record of this meeting on the city's website in the near future at the link provided in the meeting agenda.

Medford Energy and Environment Committee Members

Gaston Fiore (co-chair): Gaston believes that an environmental education campaign leveraging our youth, encouraging active forms of transportation (pedestrian and bicycle), and making green technologies reachable to low-income households are key to achieving world-class environmental sustainability for Medford. Gaston has a background in AI and machine learning and has experience in self-driving cars and demand modeling to medicine. He has BS and MS degrees in Aerospace Engineering from MIT, and an MS in Computer Science from Harvard.

Benjamin ("Benjie") Hiller: is a now retired lawyer. He has a Masters degree in biology/ecology. He spent most of his career engaged in toxic tort litigation, specializing in representing children harmed by lead poisoning. Back in the 1970s and 1980s, he was part of the Clamshell Alliance which fought to prevent the construction of the Seabrook Nuclear Power Plant and which brought the dangers of nuclear power to the attention of the world.

For accommodations, please call in advance: 781-393-2137 or TTY: 781-393-2516
